

Workshop: Vision Roadmapping

Improve performance and focus, foster inclusion and wellbeing

Alignment with ones own life intentions and core values is essential to wellbeing and to the acceleration of innovative solutions across your organization.

During this 2-hour interactive workshop, participants will apply research based methods that enable them to be more effective in achieving their personal and professional aspirations and goals.

Key workshop outcomes

Inclusion & belonging: Interactive activities and reflection opportunities will foster deeper bonds and enhance support networks that empower participants to bring forth their best at work and in their personal lives.

Energy & wellbeing: Participants will clarify their core values and create a prioritized plan to advance their personal goals—creating the confidence and focus that's foundational to wellbeing.

Innovation & effectiveness: Participants will create an action plan to advance their professional goals while also considering how their unique contributions serve your organization's mission and purpose.
